

The Honorable Members of the Oklahoma Congressional Delegation

United States Senate and House of Representatives

Washington, DC 20515

Members of the Oklahoma Congressional Delegation,

We, the undersigned Oklahomans and concerned Americans, call on you to end the occupation of our communities by federal ICE agents.

Today, Americans witnessed yet another brutal act of violence against a legal observer as Alex Pretti, an ICU nurse at the local VA hospital, was tackled to the ground by multiple ICE agents, maced, and then shot ten times in the street. Just before he was attacked, Alex was simply trying to help a woman off a slick road and onto the safety of the sidewalk. It cost him his life.

Alex Pretti should still be alive.

Renee Good should still be alive.

Keith Porter should still be alive.

The dozens of others killed in ICE custody should be alive.

Their families should not be grieving losses caused by government violence carried out with impunity. Neither should the countless others whose names we may never know. **Enough is enough.**

We write not in theory, but in response to real people whose lives have been destroyed by Immigration and Customs Enforcement (ICE) and Customs and Border Protection (CBP). Congress must immediately rein in the violence, abuse, and lawlessness that these agencies are inflicting on our communities. We demand that you **refuse to increase funding for ICE and Border Patrol** and that you **use the power of the purse to impose meaningful limits, enforce accountability, and stop unchecked immigration enforcement operations.**

Last year, Congress handed the Department of Homeland Security a staggering **\$170 billion windfall**, massively expanding a deportation force and detention system that now operates without regard for law and order. That funding did not improve safety. It enabled DHS to become what it is today: **a dangerous federal agency that terrorizes communities while evading oversight and accountability.**

Across the country, **masked federal agents outfitted for war are pulling people from their cars, zip-tying children, firing tear gas at high school students, and pointing guns at peaceful observers and protestors.** Checkpoints are being erected in our cities. People are detained not because they pose a threat, but because of the color of their skin, the language they speak, their accent, their workplace, or where they happen to be standing.

Just this past week, multiple young, **school-aged children were detained by ICE agents in the Minneapolis area**; children whose sense of safety was shattered, whose childhoods have been permanently marked by fear inflicted by the very government meant to protect them. That trauma does not disappear. It follows children for the rest of their lives.

These harms are not accidental. **They are the predictable and intended outcome of a system designed to intimidate and punish.** Families are torn apart. Neighborhoods are destabilized. Communities live under constant fear. Public trust is destroyed, and the foundations of our democracy are weakened.

This is not the America we deserve. It is not the America our Constitution allows.

Congress has both the authority and the responsibility under **Article I of the Constitution** to restrain executive agencies that abuse their power. ICE and CBP must be forced to serve the public, not to operate as militarized forces unleashed on civilian populations.

Accordingly, we call on you to take the following actions, at a minimum:

1. Refuse to vote for any FY2026 appropriations bill that increases funding for ICE or Border Patrol, including funding for immigration detention.

The system Congress has funded and sustained resulted in **32 deaths in custody in 2025 alone, ICE's deadliest year in over two decades**, while thousands of others endured physical abuse, sexual violence, medical neglect, and degrading, inhumane conditions.

2. Refuse to vote for any DHS appropriations bill beyond January 30 unless it:

- **Rigorously restricts ICE and CBP dragnet arrest operations**, including prohibiting targeting based on race, language, accent, workplace, or location at the time of apprehension;
- **Ends the deployment of Border Patrol agents into our cities** and rejects the agency's ever-expanding and unlawful domestic enforcement role; and
- **Limits DHS reprogramming and transfer authority**, explicitly barring the diversion of funds toward detention expansion or enforcement escalation.

These are not radical demands, nor are they actions that would hinder the enforcement of this nation's immigration laws. **Rather, they are the bare minimum steps required to protect our communities from escalating violence, abuse, and constitutional violations.**

To uphold these practices is to set a dangerous precedent of federal overreach and militarization that will have long-lasting impacts on our country.

We urge you to act decisively. Show DHS and the people you represent that the cruelty, lawlessness, and impunity we are witnessing will not be tolerated. **This must end. Now.**

Sincerely, the undersigned,
